

Vendor Partnership Manual

Section 1 – Introduction

We are pleased to have you as a valued partner and we feel this Vendor Partnership Manual will be the foundation of a growing and equally beneficial relationship.

This Manual is intended to communicate Pamida's requirements to help you understand what we are trying to accomplish and how we can best work together to meet those objectives. Your cooperation is imperative in making this happen. Only by working together can we both succeed. Any questions and suggestions of ways we can improve this Manual or this relationship are most welcome.

Please review this manual and implement whatever changes are necessary to meet our business requirements. Failure to meet these requirements can result in: delays in getting your product to our customers, data integrity issues with our on-hand inventory, or delays in issuing payment to you for your products. To offset any costs or lost sales we may incur and to emphasize the importance of compliance we have implemented non-compliance penalties. These penalties are clearly discussed within each section of the manual.
